EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Rothery on September 15, 2006.

On page 1 lines 7-8, the sentence "The invention concerns an intervertebral disk prosthesis or an artificial vertebral body according to the generic part of patent claim 1." was replaced by:

--BACKGROUND OF THE INVENTION

The invention concerns an intervertebral disk prosthesis or an artificial vertebral body.—

Before line 20, the phrase --BRIEF SUMMARY OF THE INVENTION—was inserted.

On page 1, line 25, the sentence, "The objective set by the invention is achieved with an intervertebral disk prosthesis or an artificial vertebral body, having the features of claim 1." was replaced by:

--The objective set by the invention is achieved with an intervertebral disk prosthesis or an artificial vertebral body, having the features of the disclosed embodiments.—

On page 1, lines 33-34, the sentence, "Further advantageous configurations of the invention are characterised in the dependent claims." was replaced by the sentence:

--Further advantageous configurations of the invention are disclosed herein.—

On page 2, prior to line 16, the phrase -- BRIEF DESCRIPTION OF THE DRAWINGS—was inserted.

On page 5, prior to line 5, the phrase -- DETAILED DESCRIPTION OF THE INVENTION—was inserted.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or make obvious an intervertebral implant comprising a jacket constructed as bellows having a specific spring rate, the jacket further having a plurality of bellows inserted into one another.

The closest prior art is Zacouto (6,692,495 B1). Zacouto discloses an intervertebral implant comprising bellows surrounded by "one or more intermediate elements (20)" (col. 4, lines 32-40). In Fig. 18, the "one or more intermediate elements"

looks like a bellows, however this is not disclosed in the specification of Zacouto nor is it disclosed as having a spring element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
